

# International Confederation of Trade and Industry (ICTI)

The New Apex of Global Business in India

***Empowering Indian Industry***  
***Shaping Global Impact***

# Redefining the Voice of Indian Industry on the Global Stage

The global economic landscape is undergoing a profound transformation. As India's influence grows, so too does the need for an apex body that not only represents its diverse business interests but also champions its role in the new world order.

Born from the need for a modern, agile, and member - centric association, ICTI is a non-profit, institution - a dynamic network of visionaries, industry leaders, and innovators working together to ensure the voice of Indian business is heard loud and clear.

## Vision

To be the definitive, forward-thinking voice of Indian industry on the global stage, shaping a future of sustainable, inclusive, and innovative economic growth.

## Mission

To serve as the premier platform for fostering collaboration, advocating for progressive policies, and providing a robust ecosystem of knowledge, services, and opportunities that empowers every member to thrive.

# Our Strategic Pillars

Our core operations are built on three strategic pillars designed to deliver maximum value to our members and the broader economy.

## Pillar 1: Policy Advocacy & Dialogue

At the heart of the ICTI is our commitment to being the primary conduit between industry and government. We don't just react to policy; we proactively help shape it. Our advocacy efforts are data-driven and built on continuous dialogue with our members.

### Key Initiatives:

 **Pre-Budget Consultations:**  
Conduct annual surveys and consultations to provide the government with a comprehensive report of industry recommendations and challenges, influencing fiscal policy and regulatory reforms.

 **Regulatory Watch:**  
Our legal and policy team constantly monitors legislative changes, providing members with timely briefings and analyses of how new regulations will impact their business operations.

## Our Sectoral Councils

To ensure we address the specific needs of every industry, we have established a network of specialized councils. These councils are the backbone of our policy advocacy, providing a structured forum for members to address sector-specific issues and present consolidated proposals to relevant ministries.

- Food, Agriculture and Horticulture Council
- Auto, Auto Ancillaries and Green Mobility Council
- Education, Skill Development and CSR Council
- Waste Processing and Circular Economy Council
- Renewable Energy Council
- Oil and Gas Council
- Real Estate, Housing and Urban Development Council
- Environment and Climate Change Council
- MSME Council
- Healthcare Council
- Logistics and Warehousing Council
- Textile Council
- International Relations
- GREENSTAR green building certification program

## Pillar 2: Global Business Facilitation

The ICTI is dedicated to being a knowledge hub, empowering our members with the insights and tools they need to innovate and lead.

### Key Initiatives:

 **Trade Delegations:**  
Gain direct access to foreign officials and potential business partners.

 **International Partnerships:**  
Connect with a global network of industry associations.

 **B2B Matchmaking:**  
Find the right partners for joint ventures and market entry.

## Pillar 3: Knowledge, Innovation & Services

The ICTI is dedicated to being a knowledge hub, empowering our members with the insights and tools they need to innovate and lead.

### Key Initiatives:

 **Economic Research:**  
Get exclusive access to quarterly economic reports and white papers.

 **Training and Development:**  
Participate in workshops, seminars, and masterclasses by top experts.

# JOIN THE MOVEMENT OF PROGRESSIVE INDUSTRY

The International Confederation of Trade and Industry (ICTI) is more than an association - it's a collective vision for a stronger, sustainable, and globally competitive India. Together, we are shaping the next era of trade, innovation, and economic leadership.

## Why Partner with ICTI

- Represent your industry at the highest policy forums
- Build cross-border partnerships and collaborations
- Access global business insights and opportunities
  - Participate in exclusive knowledge, training, and research programs
  - Be part of India's most dynamic network of leaders and innovators
